Bứt phá vươn xa

Nhạc và lời : Sỹ Luân

Đường đời dài không như ta muốn gặp ghềnh bao khó khăn
là lúc ta cần vòng tay thân ái tình anh
em và bao thương mến lạc quan cùng nhau bước đi luôn cố
gắng kiên trì trên mọi chặng đường tương lai cùng nhau sát
cánh bạn ơi cầm tay hòa chung ước mơ ngày đêm dựng xây
sẽ chia cố gắng không khó với bao con người ngày mai ánh
sáng thành công mở ra và triệu con tim cùng nhau hòa ca
nào ta cùng bước trên những chặng đường tương lai cùng nhau sát
cánh vượt qua biển xa bằng lòng nhiệt huyết rục rịch trong ta
mình cùng nhau bước đi đến cuối nơi chân trời dù là hy
sinh cũng chẳng ngại chi lòng ta vững bước cùng nhau mà đi
bằng tình yêu ấy bứt phá thành công vươn xa

BUYER'S CONSOLIDATION

FROM VIET NAM SUPPLIER TO US/UK/EU
FROM CHINA TO VIET NAM

Buyer's Consolidation provides a solution for customers who use multiple suppliers or have multiple manufacturers to ship to a singular destination while reducing freight costs and streamlining the process. By grouping these different suppliers and manufacturers' shipments onto a single, dedicated Full-Container Load (FCL) container before shipping, the customer enjoys a more efficient and streamlined supply chain.

The Buyer's Consolidation method of shipping combines the benefits of both Less-than-Container Load (LCL) and FCL shipping. We collect and consolidate your goods from the multiple sources at origin to our own Container Freight Station (CFS), palletizing and loading onto a full container dedicated to your cargo. This ensures that your goods remain entirely within your control and visibility, without you having to wait for a particular supplier to ship enough goods to make an FCL.

Additionally, with an entire container dedicated to your cargo, we can ensure optimal utilization and higher security. We simplify the process by coordinating and managing the bookings on your behalf and consolidating the goods at our own facilities.

There are many benefits of shipping with a BCN service provider. We manage the local pickup from your suppliers at origin, and have capabilities across all modes at origin, in-transit and at destination. By helping you ship with BCN, we not only reduce the risk of damage by consolidating multiple LCL shipments, it is also more cost effective.

BENEFITS OF CONSOLIDATION

- ★ Cost savings
- ★ Track one shipment
- ★ Reduced risk of damage
- ★ More reliable shipments
- ★ Reduced impact on the environment

CARGO CONSOLIDATION

WAREHOUSING and Contribution Center

Managing inventory efficiently is important factor to reduce cost for enterprises. However, the cost for warehouse is not cheap. We not only mention cost for fixed-assets, but also for management systems as well as cost for human resources.

That is the reason customers often outsource for 3PLs to handle warehousing and distributing. Customers can share cost and utilize 3PLs' resource.

As our commitment "Your Integrated Logistics Solution", we desire to able to provide all logistics service from the beginning place to the nominated place including warehousing & distributing.

Importing big volume to warehouse, separating and distributing to each consignee, then making report of inventory to customers are common tasks we provide. Do not need to care how much the cost for real estate, electronic, salary for warehouse staffs..., all will be calculated as how much per square meter customers use.

We also can provide repacking, labeling service when customers require.
